

OLSEN

Olsen Model 3-10 Cut-Off Saw

ENHANCING YOUR PROCESS

Olsen Manufacturing is committed to forming relationships with our customers that enables them to achieve their goals. We thrive on working in a cooperative environment where our customers can leverage our years of experience to keep them competitive in today's demanding environment.

We look forward to discovering how we can become a valuable part of your team.

- 10-inch Cut-off Saw
- Designed to cut through most steel quickly
- Provides square cut ready for deburring
- Cam actuated swivel vise
- 5/8-inch spindle arbor
- 3HP single phase motor
- L23" x W10" x H14"

The rugged, reliable and efficient Olsen Model 3-10 cut-off is designed to provide square cut tubing ready for your demanding applications.

The machine is capable of cutting most any tubing including aluminum, copper, annealed steel and stainless-steel tubing.

Whatever your industry, you can be sure that the Olsen Model 3-10 can deliver the work you need.
